

Global Manufacturer of Metalworking Fluids, Industrial Lubricants & Cleaners

ArrowLube

Lubricant Products

Visit www.chemarrow.com to learn more about our full line of metalworking fluids & to read case studies from actual customers.

Chem Arrow's high performance lube oils provide increased productivity and reduced maintenance costs. We manufacture our complete line of fluids using high quality petroleum base stocks. These oils were developed to provide superior wear, rust and oxidation protection as well as film strength characteristics

necessary for the new age machine tools.

Chem Arrow is a one stop solution for all your lubrication needs. With a complete line of hydraulic fluids, way lube oils, gear oils and specialty greases, we can supply all your lubricant requirements.

-  Lowers operating costs
-  Reduces maintenance & mechanical failure
-  Protects against wear & corrosion
-  Outstanding rust protection
-  AQMD super compliant

ArrowLube 400 R & O Series — Hydraulic & Multi-Purpose Oils

This is a series of hydraulic and multi-purpose oils formulated for superior performance. This series offers outstanding pump protection, longer oil life, and excellent thermal stability. These hydraulic fluids have a wide application range, including turbines and air compressors. They are ideal for use as general purpose oils, therefore reducing maintenance and increasing productivity. **AQMD super compliant.**

Available ISO grades include: 22, 32, 46, 68, 100, 150, 220, 320, 460

ArrowLube 500 Series — Way Lubes

This is a series of highly refined lubricating oils formulated to offer uninterrupted operation of your machine tool's slide ways. ArrowLube 500 Series offers outstanding tackiness, reducing the amount of lube being washed away by metalworking fluids. **AQMD super compliant.**

Available ISO grades include: 22, 32, 46, 68, 100, 150, 220

ArrowLube 600 Series — Anti-Wear Hydraulic Oils

This is a series of premium hydraulic oils developed to provide superior anti-wear properties. ArrowLube 600 Series contains highly refined base oils fortified with a variety of additives to minimize wear, corrosion, foaming, and oxidation. This line has been formulated to meet the requirements of hydraulic pump manufacturers who need fluids that have anti-wear properties. **AQMD super compliant.**

Available ISO grades include: 22, 32, 46, 68, 100, 150, 220, 320

ArrowLube 660-N Series — Gear Oils

This series of premium quality lubricants, formulated with extreme pressure additives, is designed for use in enclosed industrial gear drives. The extreme pressure additives provide extended protection to industrial gears and bearings. The superior formulation extends fluid life and helps reduce varnish deposits on internal components. The ArrowLube 660-N Series of gear oils is suited for a wide variety of gear systems. **AQMD super compliant.**

Available ISO grades include: 68, 100, 150, 220, 320, 460
